2017-2018 TEST SCORES

Denver Christian completed our MAP testing in grades 1-8 in the Spring of 2018. Our average score at each grade level is listed below along with the national averages for each grade level. Our DC average is approximately one to three grade levels above the national average. We evaluate skill learning and retention each fall and spring. Scores are shared and discussed with parents. Test results are used in conjunction with curriculum development and specifically by our Extend program to support the individual learning styles of our students.
